DIVISION OF SCIENCE RESOURCES STUDIES

The Division of Science Resources Studies (SRS) fulfills the legislative mandate of the National Science Foundation Act to ...

provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal Government...

To carry out this mandate, SRS designs, supports, and directs periodic surveys as well as a variety of other data collections and research projects. These surveys yield the materials for SRS staff to compile, analyze, and disseminate quantitative information about domestic and international resources devoted to science, engineering, and technology.

If you have any comments or suggestions about this or any other SRS product or report, we would like to hear from you. Please direct your comments to:

ACKNOWLEDGMENTS

The preparation of *Federal Funds for Research and Development: Fiscal Years 1998, 1999, and 2000* was managed by Ronald L. Meeks, Senior Analyst, National Science Foundation (NSF), Division of Science Resources Studies (SRS), Research and Development Statistics Program (RDS), under the overall direction of John E. Jankowski, Program Director, RDS, with guidance and review provided by Mary J. Frase, Deputy Director, SRS, and Ronald S. Fecso, Chief Mathematical Statistician, SRS. The text was edited by Anne M.

Houghton, Publications Manager of SRS, with assistance from Julia H. Harriston and Tanya R. Gore of the Publications Management Group. Quantum Research Corp. (QRC) of Bethesda, MD, under NSF contract number SRS-9732370, prepared the tables, general and technical notes, and report copy. QRC staff members who worked on this report were Gail H. Henry, Hilary E. Jones, Jody L. Kloczkowski, Keri R. Leibensperger, Rosemary Penna, Elizabeth H. Peto, Doorjodhan Singh, and George T. Wright III.

ERRATA SHEET

Revisions have been made to a few cells in the following tables.

1. Tables [C-16](#), [27](#), [38](#), [49](#), [83](#), [83a](#), [83b](#), and [85](#) on performers of research and development (R&D) to correct the classification of one Federally funded research and development center (FFRDC). Previously Brookhaven National Laboratory was incorrectly identified as an academic FFRDC rather than as a nonprofit FFRDC. In addition to the entries for Brookhaven National Laboratory and the National Institute of Standards and Technology, the effects of the revision are limited to the U.S. and New York State totals for the two types of FFRDCs (but not the overall FFRDC total). FFRDC revisions amount to \$27 thousand. This amount is equivalent to less than .01 percent of Brookhaven's \$217 million R&D Federal total.
2. Tables [C-82](#), [83](#), [83a](#), [83b](#), [84](#), [84a](#), [84b](#), [85](#) and [110a](#) on distributions to States of R&D Federal support to correct the apportionment of National Science Foundation (NSF) research dollars for universities and colleges in the States of Alabama and Virginia. The overall NSF total dollars are unchanged, but total Federal support, as well as NSF support, for the two States has been corrected. University R&D revisions amount to \$11 million. This amount is equivalent to less than 5 percent of Alabama's \$225 million revised university R&D Federal total and of Virginia's \$244 million revised university R&D Federal total. Total Federal R&D to all universities was \$13.366 billion in FY 1998 and NSF total R&D support to universities was \$1.875 billion.

The revised tables can be found on the SRS website at

<http://www.nsf.gov/sbe/srs/nsf00317/start.htm>
